Weird doings on the Sunday show Dec. 27!

Dr. Bill Birnes

Paul and Ben often comment on how strange things get whenever the show covers UFOs and government cover-ups. Such was the case on the CBS show this past Sunday, when the guest was Bill Birnes, publisher of UFO Magazine and star of the History Channel series *UFO Hunters*.

Amid a great conversation about 15 minutes into the show, Ben asked Bill about a secret, UFO-like German weapons system and whether the Americans had imported it after World War II. Bill answered in the affirmative. Suddenly, the audio link with the WYCD studio in Detroit, which feeds the show to other CBS stations and the Internet, suffered "outside interference." Producer Will Kosnik reported that someone (indistinct on the security camera) started pounding on the studio's street entrance, then disappeared. Then the clock on the Enos' screen in Rhode Island jumped ahead, prompting Paul to cut off the conversation with Bill and try to end the show — 15 minutes early!

To add insult to injury, the device that records the show and makes the MP3 podcasts suddenly was found to have stopped working, so we appear to have a "famous lost episode"!
